WALTER FORRESTER.

RED HOT ROAST FOR M'KINLEY AND HANNA.

FRANKFORT, KY., April 1 .- At least one thing is no April Fool's joke, and that is that \$-Mark Hanna's putty-faced puppet will not occupy the presidential chair another term. The miserable farce of the past two weeks has settled that, and the brother of McKinley's law partner, who spent several days in Kentucky this week sounding Gov. Bradley and other leading republicans, will go home with burning ears.

McKinley is merely the agent of a gang of speculators, headed by \$-Mark Hanna, and here is their game as I heard it in New York last Sunday. Some of the Kentuckians who attended 3 13 am the launching of the Kentucky and the Gray Eagle, 3rd dam by Copperbottom. 4th 12 19 am Kearsarge said they were going to dam a thoroughbred. Lincoln King is a rich Washington to learn the war news. I tail. He is four years old and a No. 1 sad-went to New York to learn the war die horse. Will stand at the low price of news. New York is where this country is governed from at present.

Well the Mark \$-Hanna syndicate wants no war with Spain, but they want Cuba to be free. They also want Cuba to buy her freedom with \$200,000,000. They are also willing to advance the \$200,000,000 accepting therefor Cuban bonds All very simple! They will get the bonds at a low price because Cuba's credit is not good.

Now! When Cuba gets free from Spain she can never pay that debt and she will fall into disorder and anarchy. and by that time there will be millions of American capital invested in sugar plantations and iron ore beds in Cuba. Then the United States will have to annex the island and pay its debt, and the Cuban bonds will go to a big prem ium like other United States bonds.

What about the Maine and her murdered sailors? Well &-Mark Hanna is perfectly willing to throw in a few hundred dead sailors to close a bargain that will put more dirty dollars into his gleasy fist. You will hear no more about the Maine incident if Hanna's man can keep the subject in the back ground. Peace at any price! Millions for tribute to Spain for Cuba's freedom! Millions to spend for boats built in 8-Mark Hanna's ship yard at Cleveland, boats too long by 10 feet to go through the Canal! Millions to feed the scarving Cuban's when the American people will stand the horror no He will make the season at longer! But not a single blow to make good the pledge of the last republican National platform! Not a single shell to blow Havana's assassins off the earth for their cowardly murder of our sai-

No, it might interfere with somebody's business! It might spoil that speculation in Cuban bonds that the United States will some day have to pay. It is possible that William Jennings Bryan spoke prophetically of the 'cross of gold" and the "crown of Time, No. 745. thorns." Is the blood of our sailors and the honor of our country to be thrown for "boot" with \$200,000,000 of American money to buy dishonorable peace with Spain because \$-Mark Hanna wants to speculate on the bankrupt estate of the moribund power? What an outcome after all the talk about demanding satisfaction of Spain.

If McKinley ever fights it will be because Congress kicks him into it. WALTER FORRESTER.

In remitting for his paper another year Mr. M. G. Cash writes from Snyder, Scurry county, Texas: Will you kindly permit me to say through your \$10 to Insure a Living Colt paper to my friends and relatives in Lincoln county, who by the way, I never hear from except through the INTE-RIOR JOURNAL, that we have lately removed from Bosque county, Texas, where we lived for 27 years to Scurry county, Texas, some 300 miles West of Bosque. Until very recent years this part of the State has been used exclusively for stock raising; but considerable farming is being done here now. with very satisfactory results, last year's crops being especially fine. We have had good rains this winter and spring and our prospects are very encouraging. With kindest regards to ou and all our old time friends, I am ours truly, M. G. Cash.

The rain established a new record for March, the fall being 9.94 inches. The average annual rainfall at Louisville for the past 27 years, is 45.76 During the first three months of the present year the fall is 20.71 inches. nearly one-half the average for 12 months. The greatest rainfall recorded for any single month was 16.46 inchs in July 1875.
